

# THE HEALING CENTER

## FOR CHILD VICTIMS OF SEX TRAFFICKING \$15,000,000 CAMPAIGN

St. Jude's Ranch for Children, a community of hope and healing for more than 52 years, is committed to serving child victims of sex trafficking in our community. The Healing Center will be the only residential treatment center with these specific housing options in Southern Nevada, and one of the few in the entire country.

This program will offer specialized and holistic residential homes for child victims of sex trafficking, expanding our services to help a growing victim population that has nowhere else to turn. This specialized program will be focused on assisting these young people in moving from victim to survivor.

The Healing Center will be a visible sign of hope and a functional space for healing so that victims receive the support they need to thrive. St. Jude's Ranch has the experience, knowledge and capabilities, however we can't do this alone. We need community support to bring hope and healing to young victims in need.

St. Jude's Ranch for Children is calling on leaders, corporations, philanthropists and all community members to invest in the development and the long-term success of the Healing Center.
